UCSB STAFF — It’s All About U!

Join us in the Gaucho U Vision — “To create innovation, employee engagement, culture change, build community, and develop leaders.”

Gaucho U is a program where all staff are encouraged to discover and share their talents. This is an opportunity to grow, expand your leadership skills, and participate in peer-to-peer feedback. Participants build individual and team skills while collaborating on a group innovative project.

“What bold idea would improve our university?”
