PREFACE

This guide focuses primarily on the steps taken by the hiring managers to start and complete recruitment. It’s designed to be a helpful reference to provide process and procedural guidance, not a complete source of recruitment information. For specific recruitment questions not covered in this document, please contact the UCSB HR employment team.

HIGH LEVEL PROCESS

The end-to-end recruitment process is comprised of three swim lanes for each of the following key process stakeholders.

- Departmental Hiring Manager
- HR – Employment Team
- Applicants (internal/external)

The process starts with the Hiring Manager creating a job opening and ends with submitting the prepare for hire request to UCPath Center to hire the selected candidate.

Those who have emerged are considered to have the skills, knowledge and experience that more closely meet the needs of *position title*. Again, thank you for your interest in employment at the University of California, Santa Barbara. I hope there may be other employment opportunities of interest to you in the future. Our decision was based upon a careful comparison of the demands of the position with the abilities shown by each candidate. We appreciate your interest in the position and the time expended in reviewing your candidacy with us. Again, thank you for your interest in employment at the University of California, Santa Barbara.
