INFORMATION REGARDING THE 2018 REVISED BI-WEEKLY CALENDAR-AT-A-GLANCE

For bi-weekly paid employees, two there are two times a year when flat dollar deductions are not deducted from paycheck. Specifically, there normally twenty-six (26) bi-weekly paydays per year, with two bi-weekly paydays each year (referred to as deduction holidays) which have no flat dollar deduction taken from paychecks. These deduction holidays are identified on the Bi-Weekly Payroll Calendar and the Payday Calendar.

The Benefit Deduction Holiday scheduled for July 11, 2018 is being differed to the UCPath scheduled deduction holiday for paychecks issued on October 31, 2018. This impacts bi-weekly paid employees and results in the same number of deduction holidays as in PPS for 2018.
